Visit [www.posturalrestoration.com](http://www.posturalrestoration.com) for additional course dates & locations.

*Certificates of Completion are awarded to attendees upon the successful completion of each course. Before attending a course, please verify CEU acceptance with your profession's regulating body.*

### Physical Therapists and PT Assistants

The American Physical Therapy Association (APTA) as a national organization does not approve continuing education providers or courses. Rather, state chapters create their own guidelines for course approval. Many states require that PT's and PTA's complete a certain number of continuing education hours in order to retain their licenses; but not all of those states require that the courses themselves be approved. In the states that require approval of CE courses for PT's and PTA's and where PRI is hosting a live course PRI courses are approved yearly. PRI has never been denied for continuing education credit.

- PT's and PTA's are eligible to apply for Postural Restoration Certification (PRC).

### Occupational Therapists and OT Assistants

The American Occupational Therapy Association (AOTA) recognizes PRI as an Approved Provider of continuing education. Approval applies to PRI live courses. Please note that the assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA.

- OT's are eligible to apply for Postural Restoration Certification (PRC).

### Athletic Trainers

PRI is recognized by the Board of Certification, Inc (BOC) to offer continuing education for certified athletic trainers (#P2376).

- AT's with Certification through the BOC are eligible to apply for Postural Restoration Trained (PRT).

### Strength and Conditioning Coaches

The National Strength and Conditioning Association (NSCA) has approved the following courses for 2012: Myokinematic Restoration, Pelvis Restoration, Postural Respiration, Impingement & Instability, and Advanced Integration. These are the PRI courses most beneficial to those designing strength and conditioning programs.

- Strength Coaches who have earned the CSCS credential through the NSCA are eligible to apply for Postural Restoration Trained (PRT).

### Other Healthcare Professionals

PRI welcomes any interested healthcare professional to attend our courses. Attendees are responsible for following their state statutes regulating their professional practice as they integrate interdisciplinary PRI concepts. Certificates of Completion are awarded to attendees upon the successful completion of each course.
