

**OA Extension  
(Inhalation)**

**OA Neutral**

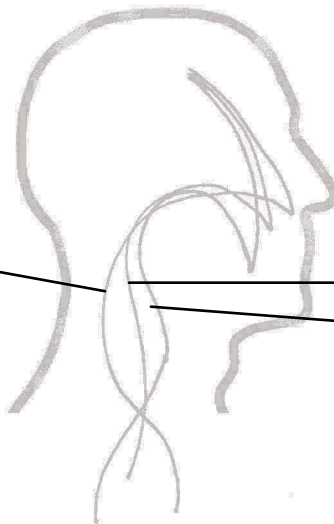

**OA Flexion  
(Exhalation)**

**OA Extension**

**OA Neutral**

**OA Flexion**

## **Rehabilitation Goals**

- 1. Increase cervical flexion**
- 2. Increase inhalation bilaterally (R TMCC Inhalation)**
- 3. Extend and posteriorly rotate cranium with rectus capitis not upper trapezius and sternocleidomastoids**
- 4. Achieve lateral mandible movement without cervical or cranial movement**
- 5. Restore normal resting bite**
